

Environmental and Sustainability Policy

DLS Medical recognise the concern of customers that it should act in a socially responsible manner and reduce, where possible, its impact on the environment. It is also mindful of the need for cost control and sustainability of the business for the long term. Our policy is to focus on those areas where commercial benefit can be gained through reducing energy use and waste in all areas and by recycling and dealing with business waste in a responsible manner.

DLS Medical will work towards:

- Ensuring that all relevant Environmental Legislation and Regulation is applied
- Operating the Business in an environmentally sensitive manner
- Purchasing environmentally friendly materials when appropriate and possible
- Raising the awareness of staff so that everyone may be involved
- Reducing energy usage by increased energy efficiency
- Adopting business processes and activity which reduces energy use and waste
- Re-using or recycling waste when possible
- Using raw materials in a manner that reduces waste
- Exploring ways in which the supply chain might be modified to improve efficiency
- Exploring ways to adopt new technology to improve environmental impact

It will aim for Continuous Improvement.

George Brewis
